PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in front-end and full-stack web development, specializing in building scalable, user-centric applications. Proficient in Java, JavaScript, React, SQL, and modern UI frameworks, with experience delivering technology-enabled solutions through real-world projects. Aspiring to contribute in a consulting driven environment by applying analytical thinking, technical expertise, and a client-focused approach to deliver impactful business solutions.

EDUCATION

Pranveer Singh Institute of Technology, Kanpur Bachelor of Technology in Computer Science (Percentage: 72.35%)	2022 – 2026
Gulmohar Public School Intermediate (Percentage: 72%)	2020 – 2021
Dayanand Dinanath Education Centre High School (Percentage: 88%)	2018 – 2019

PROJECTS

Krishi Mitra - Built a real-time agricultural information platform serving region-specific crop and soil recommendations. - Integrated live weather data and soil analysis modules, improving decision-making accuracy by 25%. - Designed responsive UI using HTML, CSS, and JavaScript, enhancing accessibility for rural users.	Dec 2024
Travel Agency Platform - Designed and developed an AI-driven travel booking platform with automated trip planning and admin dashboard. - Improved trip-planning efficiency by 30% through optimized UI workflows and intelligent recommendations. - Integrated Appwrite backend services and Syncfusion components to manage bookings, analytics, and user data. - Conducted testing with 20+ users, incorporating feedback to enhance performance and usability.	April 2025
Smart Agricultural System - Developed an IoT-based smart irrigation system utilizing, Node MCU , DHT11, soil moisture sensors, and float sensors for automated water management. - Revamped existing irrigation systems by integrating microcontroller-based circuit connections, resulting in enhanced operational control and a significant decrease in overall water wastage. - Implemented Python-based data analysis and machine learning models to optimize irrigation schedules.	May 2025

SKILLS

Technical Skills: Java, Python, C, JavaScript, HTML5, CSS3, Tailwind CSS, Microsoft PowerPoint, Microsoft Excel, MySQL, GitHub, React, Flask.

Behavioral Skills: Debugging and Root Cause Analysis, Team Collaboration, Problem Solving, Fast Adoption of New Tools, Adaptability.

CERTIFICATIONS

Machine Learning Specialization (DeepLearning.AI) by coursera.
HTML5, CSS3, Javascript by Infosys Springboard.
HackerRank Python basics Certificate

ACHIEVEMENTS

- Achieved 5-Star rating in Algorithms on HackerRank, ranking among top performers
- Consistently solved over 100 problems on LeetCode, improving analytical and programming efficiency.
